Objective

Dedicated and results-driven professional with 9+ years of experience spanning customer service, sales, office administration, IT support, quality assurance and operations, with a growing specialization in software engineering and full-stack development. Currently working as a Junior Full-Stack Developer Intern at Shaper/ABSA, gaining practical experience in web application development, Git/GitHub, testing, debugging and the software development lifecycle. My diverse background has developed strong problem-solving, communication, analytical, organisational and teamwork skills. I am motivated, adaptable, detail-oriented and committed to learning and delivering quality work. Seeking opportunities to grow within a software engineering, full-stack development or IT environment where I can contribute meaningfully to development teams and business objectives.
